Guide to Job Interview Process
Notre Dame Computer Science and Engineering

Preparation

Interested — Qualified — Relaxed

Forget about studying books or guides… If you go into the interview **interested** in what the company does, **qualified** for the position, and feeling **relaxed**, you will be putting your best foot forward.

Interview
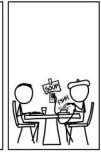

Priorities

1. Meet the people
2. Ask about your average day
3. Walk around the office

Using your imagination, drop yourself into this job. Walk around like you work there.

The interview is just as much about you getting to know them.

Decision

Benefits X   Location X

Commute X   Company X

Seniority X   Compensation X

People ✓

Whether you're coding, consulting, or crafting a sales pitch, the constant is the people you're working with.
